DETAILED ACTION

Response to Amendment

1. The reply filed 02/23/2006 was applied to the following effect: All relevant objections and rejections are withdrawn as being satisfied.

Reasons for Allowance

2. Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance:

This application is for a METHOD FOR FABRICATING A THIN FILM
MAGNETIC HEAD AND WAFER STRUCTURE.

- **Claim 1** specifies a method for fabricating a thin film magnetic head, which requires:

“fabricating, directly on said substrate, an element leading wire to be electrically connected to said thin film magnetic head assembly,” “

- **Claim 10** specifies a wafer structure, which requires:

“wherein the element leading wire is in direct contact with the substrate.”

The closest prior art of record, Watanuki (US 6,195,871 B1) fails to fairly, teach, show or suggest, by either anticipating or rendering obvious, the invention as set forth in the claims of the instant application. Furthermore, a search made does not detect the combined claimed elements as set forth in the pending claims. Additionally, the reasons for allowance of the claims over the prior art of record is believed to be readily clear, self evident and apparent from the claim language set forth in each of claims 1 and 10, when compared and contrasted with the prior art.

Art Unit: 2627

More particularly, the instant invention (as set forth in claims 1 and 10) provides for the element leading wire to be in direct contact with the substrate. None of the cited prior art of record disclose such an element leading wire to be in direct contact with the substrate, as set forth in the manner, function and relationship relative to other claimed structures as prescribed by the independent claims. Specifically, Watanuki teaches an element leading wire 42 being electrically connected with a circuit leading wire 32. Watanuki does not teach, suggest or show an element leading wire being in direct contact with the substrate as claimed in the present invention.

Therefore, these features, in combination with other features of claims 1 and 10, are not anticipated by, nor made obvious over, the closest prior arts of record of Watanuki (US 6,195,871 B1).

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
